THE DAILY EPITAPH IS
the only Daily Newspaper
published in Cochise county
that takes a regular
telegraphic press report
and does not use "halber
plate."

THE DAILY EPITAPH is sorry to see that old game of Arizona, sectionalism, being brought forward again, and, as in former years, sought to be used as a means to defeat the advancement of the Territory. It is noticeable that the attempt to resurrect and revivify this ancient spectre comes from those who oppose statehood. The first paper to start in on this line was the Prescott Hoff and Horn, and now it is taken up by the Tucson Citizen, both of which have not stopped at any sort of misrepresentation in their effort to defeat the movement for statehood. It is to be presumed, from the way they talk of Phenix in connection with the convention, that if Prescott or Tucson had been designated as the place where the convention should be held, everything would have been lovely. But no, prosperous Phenix, the capital, and where the convention ought to be held, was chosen, and consequently their doll is stuffed with a very vile article of sawdust. This plea against statehood, while the weakest that has yet been made, is at the same time one of the most mischievous, and cannot be too severely condemned by the people of the Territory at large.

THE Pioche Record, one of the leading papers of Nevada, and a leader of the Republican party in that State, disposes of the cry being made for a return to a Territorial form of government in the following vigorous manner: "As a result of the growth of disgruntled politicians, through Democratic newspapers which are published in this State, the Eastern press is again taking up the old lie about Nevada's incapacity for the support of a State government. With 4 per cent State bonds at par, a million dollar school fund, a gradually increasing tax roll, and an expense of government proportionately less than many other States, notwithstanding our small numbers, Nevada can afford to let the pack howl on for a while."

SOME of the California papers are publishing accounts of the finding of rich mines in Death valley. They also claim that to any one acquainted with the geography of that country there is not much danger in exploring it, there being a number of springs, and one man tells of quite a stream of water and plenty of pine timber. It may finally turn out that this far-famed valley, about which so many gruesome tales have been told, is not such a death-trap as has been made out, and will eventually prove to be a desirable possession to California by reason of the many valuable mines it contains.

THE howl against the statehood movement now is that it is was inaugurated merely to benefit the saloons and boarding houses of Phenix. They are reduced to desperate straits.

THE Nogales Herald says that every man who opposes statehood does not plow with a crooked stick, but every man who plows with a crooked stick and covers his residence with bear grass opposes statehood.

A DISCOVERY of mummies is alleged to have been made in Sonora. It is likely that some of the opponents of statehood heard the whistle of advancement, got scared, ran off to Sonora and went to sleep.

THE Florence Alta made its appearance on our table this week. It is published by J. B. Fitch, and starts off well as a local paper. Considering the difficulties under which Mr. Fitch labored in getting out the first issue it presents a better appearance than was to be expected. The DAILY EPITAPH wishes its new exchange success.

THE Board of Supervisors of Maricopa county have determined to act on the suggestion of the two committees, and will call an election for delegates to a constitutional convention. The DAILY EPITAPH respectfully asks the Board of Cochise county to do likewise. There is no doubt of the legality of the law, and it should be observed, notwithstanding the unlawful attitude of the Governor.

Swept by the Tide of Popularity.
To the topmost pinnacle of success, Hostetter's Stomach Bitters stands a shining proof of what genuine merit, backed by the living force of proven facts, can attain. The North and South American continents, Europe, Australia, the West Indies, Guatemala and Mexico have all contributed wide patronage and testimony of the most favorable kind—but unsolicited—to swell the reputation of this sterling remedy. Among the maladies for which the most convincing public and professional testimony proves that it is a benign curative, are chills and fever, bilious remittent, dumb ague and ague cake, dyspepsia, liver complaint, nervousness, debility, kidney and bladder complaints. It mitigates the infirmities of age, hastens convalescence, has a tendency to prevent ill consequences from exposure and exhaustion. Persons of sedentary habits and laborious occupations will find it an ever useful tonic.

Maison Dore.
This old time and popular restaurant still maintains its position as a favorite place for our citizens to regale themselves on all the table delicacies, which are prepared in a toothsome manner and served by polite and attentive waiters. This restaurant makes a specialty of broiled steaks and cutlets, and imports coffee of extra quality, thus being able to furnish the best cup of coffee obtainable in the city. Fresh fish every day, and an elegant chicken dinner every Sunday.

ADVICE TO MOTHERS.
Mrs. Winslow's Soothing syrup, for children teething, is the prescription of one of the best female nurses and physicians in the United States and has been used for over forty years with never failing success by millions of mothers for their children. During the process of teething its value is incalculable. It relieves the child of pain, cures dysentery and diarrhoea, griping in the bowels, and wind colic. By giving health to the child it gives rest to the mother. Price 25 cents a bottle. Jan 26-14

Parents should be careful that their children do not contract colds during the fall or early winter months. Such colds weakens the lungs and air passages, making the child much more likely to contract other colds during the winter. It is this succession of colds that causes catarrh and bronchitis or paves the way for consumption. Should a cold be contracted, loose no time but cure it as quickly as possible. A fifty cent bottle of Chamberlain's Cough Remedy will cure any cold in a few days and leave the respiratory organs strong and healthy. For sale by H. J. Peto.
